He of three prominent men was the object of a search by United States Postal Inspectors today.

The letter writer, the same who informed state prohibition enforcement officers that liquor would be found in the homes of State Senator George H. Bender and Federal Judge Westenhaver, has penned a third missive, declaring intoxicants would be found in the home of Common Pleas Judge Samuel H. Silbert.

The three letters, the first of which led to a raid on the home of Sena tor Bender, was identical. No liquor was found in the Bender residence and the senator subsequently filed damage suits against the raiding offi-

As a result of the Bender raid, officers investigated the addresses contained in the last two missives before attempting a raid. It was then discovered that the addresses corresponded to the homes of Judge Westenhaver and Judge Silbert.

The Silbert letter was turned over to U. S. District Attorney Bernsteen who forwarded it to postal inspectors. The inspectors have begun an investigation and expect to apprehend the author of the notes momentarily,

#### START SEARCH FOR MISSING SALESMAN

Cleveland, O., Jan. 8-State-wide search for Horace F. Benton, 34, salesman of the Cleveland Varnish Company, who mysteriously vanished December 30, was started today by authorities from Cleveland, Lorain and Vermillion.

Benton is supposed to have left Cleveland for Vermillion, where he was to complete a business deal. He never reached Vermillion, police say. The auto driven by the missing salesman on the morning he left his home. in Garfield Heights, was found abandoned here. The machine was in perfect running condition.

#### ABOUT BENJAMIN FRANKLIN.

THAT Benjamin Franklin was not only scientist, statesman and philosopher but inventor of American humor, "first high-priest of the religion of efficiency" and "the first Rotarian" are suggestions of the famous English essayist, Mr. Phillip Cuedalla, in a brilliant article which Mr. Guedalla contributes to a series of articles on distinguished Americans which is appearing in The Forum.

One of Franklin's tastes ran, Mr. Guedalla avers, to meetings-to "friends in council." "Its first seed was sown," he goes on, "in the Society of the Free and Easy and in that United Party for Virtue which he longed to form. But its flowering was in the Junto, that delight of Philadelphia Friday evenings, supplemented in the right season by a monthly meeting at some proper place across the river for bodily exercise. Twelve members wrestled with first principles in debate, explored philosophy, and even turned an attentive eye on physics. But a still closer bond united the philosophers; since a standing question on the club's order-paper inquired 'In' what manner can the Junto, or any of them, assist you in any of your honourable designs?"

"The answer, perhaps, lay in that contract for printing forty sheets of the history of the Quakers, which an original member of the Junto procured for the house of Franklin and Meredith. The objects of the club included 'the promotion of our particular interests in business by more extensive recommendation,' all its members 'exerting themselves in recommending business to us.' It was the parent-lodge of a stupendous brood; and, across the gulf of time, one acclaims Franklin as the first Rotarian.

"His career for forty years was a model of self-improvement, a steady climb up the long hill that leads to affluence. From the days when a small apprentice delivered damp copies of the New England Courant up and down Boston to the closing dignity of his long retirement, Franklin pursued an even course. The Muses beckoned; a dozen hobbies tempted; romance was hovering somewhere out of sight; the universe pressed for an answer to its riddle. But the printer's apprentice printed indefatigably on."

#### HYPOCRISY IN BUSINESS.

DURING and since the war there has been so much talk about service the public may have come honestly by the belief that people are in business primarily for the good they can do others and to make a living for themselves as an after-thought. Discussing this anomalous situation in the Baltimore Sun, H. I. Mencken remarks:

"I see nothing discreditable in that motive (profit making): It is honest, it is honorable and it is sound. There is no nonsense about it. But has of late gone under a cloud? Then blame the Babbitts who shrink from confessing it frankly and try to pretend they are in business for purely philanthropic and even messianic purposes."

Those luncheon orators who pretend to this commercial philanthropy are not so far wrong as they are reversed in their line of reasoning. They have merely placed the cart before the horse. Instead of men going into business to serve mankind, as the Babbitts preach, they give service to stay in business. The relation between merchant and customer can be either mutually beneficial or entirely unsatisfactory to both sides. The merchant who gives the most service receives the most profit, and, on the other hand, businessmen who serve little profit little.

From the customer's viewpoint the best businessman is the one who devotes himself strictly and wholeheartedly to business, who likes it and gets fun out of it, who masters every detail of it, whose definition of service is "honest goods at honest prices," who takes a pleasure in making profits for himself and his patrons on the same deal, and makes of his place of business a community institution so it will make for himself a more comfortable living.

#### **XENIA BOXING FANS** MAY LAUNCH MOVE TO LEGALIZE GAME HERE

After four years in which no boxing has been permitted in the city, an effort, may be made to establish legalized boxing matches in Xenia, it is

Cable McCullough, Springfield boxing promoter, and James Killeen, local boxer and sportsman, plan to introduce amateur and professional matches in Xenia or in the county, if consent of proper officials can be obtained.

The exact method to be pursued in establishing legality of boxing in Xenia is not known.

According to an interpretation placed on the state boxing law by local officials, permits for the exhibi-tion must first be granted by the mayor of the city. No permits may be granted to individual promoters but an athletic club or gymnastic club must first be formed for the purpose of fostering the sport, it is believed.

Whether the mayor of Xenia would be empowered to grant a permit to an athletic club is problematical because of the limited power granted him under the charter form of govern-

A boxing commission would not necessarily have to be organized, it is said. Xenia had a boxing comission several years ago appointed by the city manager. City Commission has since been advised however, that the law does not make it obligatory upon the body to appoint a boxing commission and as a result it would now be void

The sheriff of the county is also authorized under the law to grant permits to athletic clubs for boxing in the county outside city limits. Boxing exhibitions are permitted but must first be distinguished from "prize fights" for which permits may Several attempts to legalize boxing in Xenia in past years COUNSEL NAMED TO have failed.

Promoters Killeen and McCullough plan to bring to Xenia prominent boxers from Ohio, Michigan, Kentucky, Indiana and Pennsylvania. Both are well known to local fans.

the Father of Physical Culture

There has been a great change in the treatment of diabetes mellitus in the last few years-indeed the present day treatment is very similar to that which we have sug-gested for years. Treatment must begin early if recovery is to be expected. When the disease has advanced to such an extent that the various organs of the body have degenerated, very little hope of recovery can be given by any method of treatment, but our method should be given a trial.

It must be remembered that simply to free the urine from the sugar is not the essential factor in treatment. The sugar which has already passed through the kidneys can do no harm, but the sugar which is in the blood together, with the acetine bodies, is capable of doing a great deal of injury to the tissues of the body. It is also essential to remedy the organic defect responsible for the trouble. To get rid of the excess of sugar in the blood, and also to make the urine sugar free, a fast is essential. This fast should continue until there is no trace of sugar in the urine and for one day thereafter. In some case we have found that orange juice may be allowed and the results are the same. As a rule the strict fast is the better way. The milk diet is of value after the fast in some cases, but care must be exercised that the fats are not metabolized into sugar, or that an acidosis is not induced. in which case a fatal coma may develop. It would be best to begin with skim milk and if the sugar does not appear in the urine and there are no signs of drowsiness, which is the first symptom of acidosis, the quantity of milk may be gradually increased. Some of our best cases have taken the milk diet. Should acidosis appear the patient must be fed carbohydrate food immediately, such as corn starch, cereal gruels, crackers and puddings. If the milk diet is not used, a graded diet must be

followed. One protein food must be selected and this is added first to foods containing five per cent of carbohydrate; if there is no appearance of sugar in the urine after a week the ten per cent carbohydrates may be added for a week. and next week the fifteen per cent, but at the first appearance of sugar in the urine a fast is taken.

# Bent Resolutions

How are the new, clean, bright resolutions holding up? Do they show signs of wear yet or are they commencing to bend a bit? Are you sorry you didn't make some OTHER one instead of the one you

Personally we admire a person who makes a resolution. We look on them a great deal like Mark Twain looked on boils. A friend of his had a boil on his neck and was complaining about the discomfort of boils in general but PARTICULARLY boils that grew on one's neck. Mark agreed with him and stated firmly that if he HAD to have a boil he'd prefer to have it on his mother-in-law.

And that's about US on the Resolution question.

So in case YOUR Resolution is getting frayed along the edgeswhy, just bring it in and we'll do all WE can to straighten it up for

Why ANYONE would mess around patching up a resolution when it's so blamed easy to make ANOTHER one has always been apple sauce to ME! I've got a couple trunks full of mity fine resolutions, many of them practically new and unused. I've got 205 "SHOP HERE FIRST" (meaning drug stores) resolutions, which Doc Sayre wants me to give to that many local shoppers! This particular resolution fits mity neat on ANYONE and is guaranteed to show the owner enormous dividends in Dollars and contentment. Get one before they're all gone. It's a 1926 model too!

## New Phonograph Records!

Don't fret because you haven't one of the new Orthophonic Victrolas! Just go right ahead with the machine you've got. Some of the records we have are from voices that are now still and gone forever-probably the biggest loss being Caruso.

#### Amazed Stomachs!

Many of them wonder how they ever got through the heavy duty they have been doing for the last couple weeks! It's only fair that you should give them a helping hand, if you know what I mean. While we have a host of good aids, we particularly recommend Rexalls Dyspeptic Tablets (25c-50c-\$1.00) and Pepsincos, a pig Pepsin preparation (25c-50c-\$1.00.)

#### ATTORNEY GENERAL DENIES KNOWLEDGE OF INVESTIGATION

Is First Witness Called In Probe Of Company Headed By Mellon

Washington, Jan. 8 .-- Attorney General John Sargent told the Walsh committee today that he did not know much about the investigation of the Department of Justice into the aluminum "trust" controlled by Secretary

of the Treasury Mellon. Sargent, testifying as the first witness in the inquiry of the senate judiciary committee, said he learned of the case from newspapers after taking office and left the matter to his assistant attorney general, William J.

Washington, Jan. 8 .-- John Garibaldi Sargent, of Vermont, attorney general of the United States, faced senate fire today for the first time in the new Walsh inquiry into the so-called aluminum trust.

Sargent was called as the first witness before the senate judiciary committee, which has been charged with ascertaining whether he has been duly diligent in investigating the Aluminum Company of America, controlled by Secretary of the Treasury Mellon.

His initial appearance follows the recent inquiries directed against former Attorneys general Harry Daugherty and Harlan Stone, both of whom were repeatedly called before senate committees to explain the administration of their department.

Sargent has informed Republican friends in the senate that his department has used all possible means to ascertain the facts in the aluminum case but that nothing of sufficient import has been divulged to warrant institution of any proceedings.

#### COACH ANDY SMITH DIES IN HOSPITAL

Philadelphia, Pa., Jan. 8.-Andrew L. (Andy) Smith, the University of California's famed football coach and former Pennsylvania football star, died at 6 a. m. today at the University of Pennsylvania hospital here. He had been ill since the middle of December from pneumonia.

Pulmonary abscesses following bronchial pneumonia, was given as the immediate cause of death.

Dr. Robert G. Torray, close friend of Smith and himself a former football star, and Bill Hollenback, also a former Pennsylvania football man, were with Smith at the hour of death. Smith had been slowly gaining for the last week, according to the hospital officials until last evening when he suffered a relapse.

Physicians worked much of the night to save his life, but to no avail.

#### ABOUT BENJAMIN FRANKLIN.

THAT Benjamin Franklin was not only scientist, statesman and philosopher but inventor of American humor, "first high-priest of the religion of efficiency" and "the first Rotarian" are suggestions of the famous English essayist, Mr. Phillip Guedalla, in a brilliant article which Mr. Guedalla contributes to a series of articles on distinguished Americans which is appearing in The Forum.

One of Franklin's tastes ran, Mr. Guedalla avers, to meetings-to "friends in council." "Its first seed was sown," he goes on, "in the Society of the Free and Easy and in that United Party for Virtue which he longed to form. But its flowering was in the Junto, that delight of Philadelphia Friday evenings, supplemented in the right season by a monthly meeting at some proper place across the river for bodily exercise. Twelve members wrestled with first principles in debate, explored philosophy, and even turned an attentive eye on physics. But a still closer bond united the philosophers; since a standing question on the club's order-paper inquired 'In' what manner can the Junto, or any of them, assist you in any of your honourable designs?"

"The answer, perhaps, lay in that contract for printing forty sheets of the history of the Quakers, which an original member of the Junto procured for the house of Franklin and Meredith. The objects of the club included the promotion of our particular interests in business by more extensive recommendation,' all its members 'exerting themselves in recommending business to us.' It was the parent-lodge of a stupendous brood; and, across the gulf of time, one acclaims Franklin as the first Rotarian.

"His career for forty years was a model of self-improvement, a steady climb up the long hill that leads to affluence. From the days when a small apprentice delivered damp copies of the New England Courant up and down Boston to the closing dignity of his long retirement, Franklin pursued an even course. The Muses beckoned; a dozen hobbies tempted; romance was hovering somewhere out of sight; the universe pressed for an answer to its riddle. But the printer's apprentice printed indefatigably on."

#### HYPOCRISY IN BUSINESS.

DURING and since the war there has been so much talk about service the public may have come honestly by the belief that people are in business primarily for the good they can do others and to make a living for themselves as an after-thought. Discussing this anomalous situation in the Baltimore Sun, H. L. Mencken remarks

"I see nothing discreditable in that motive (profit making). It is honest, it is honorable and it is sound. There is no nonsense about it. But has of late gone under a cloud? Then blame the Babbitts who shrink from confessing it frankly and try to pretend they are in business for purely philanthropic and even messianic purposes."

Those luncheon orators who pretend to this commercial philanthropy are not so far wrong as they are reversed in their line of reasoning. They have merely placed the cart before the horse. Instead of men going into business to serve mankind, as the Babbitts preach, they give service to stay in business. The relation between merchant and customer can be either mutually beneficial or entirely unsatisfactory to both sides. The merchant who gives the most service receives the most profit, and, on the other hand, businessmen who serve little profit little.

From the customer's viewpoint the best businessman is the one who devotes himself strictly and wholeheartedly to business, who likes it and gets fun out of it, who masters every detail of it, whose definition of service is "honest goods at honest prices," who takes a pleasure in making profits for himself and his patrons on the same deal, and makes of his place of business a community institution so it will make for himself a more comfortable living.

Cable McCullough, Springfield boxing promoter, and James Killeen, local boxer and sportsman, plan to introduce amateur and professional matches in Xenia or in the county, if consent of proper officials can be

obtained. The exact method to be pursued in establishing legality of boxing in Xenia is not known.

According to an interpretation placed on the state boxing law by local officials, permits for the exhibi-tion must first be granted by the mayor of the city. No permits may be granted to individual promoters but an athletic club or gymnastic club must first be formed for the purpose of fostering the sport, it is

A boxing commission would not necessarily have to be organized, it is said. Xenia had a boxing comission several years ago appointed by the city manager. City Commission has since been advised however, that the law does not make it obligatory upon the body to appoint a boxing commission and as a result it would now be void

The sheriff of the county is also authorized under the law to grant permits to athletic clubs for boxing in the county outside city limits. Boxing exhibitions are permitted but must first be distinguished from "prize fights" for which permits may not be granted. Several attempts to legalize boxing in Xenia in past years COUNSEL NAMED TO have failed.

Promoters Killeen and McCullough plan to bring to Xenia prominent boxers from Ohio, Michigan, Kentucky, Indiana and Pennsylvania. Both are well known to local fans.

Father of Physical Culture

BERNARR

There has been a great change in the treatment of diabetes mellitus in the last few years-indeed the present day treatment is very similar to that which we have sug-gested for years. Treatment must begin early if recovery is to be expected. When the disease has advanced to such an extent that the various organs of the body have degenerated, very little hope of recovery can be given by any method of treatment, but our method should be given a trial.

It must be remembered that simply to free the urine from the sugar is not the essential factor in treatment. The sugar which has already passed through the kidneys can do no harm, but the sugar which is in the blood together, with the acetine bodies, is capable of doing a great deal of injury to the tissues of the body. It is also essential to remedy the organic defect responsible for the trouble. To get rid of the excess of sugar in the blood, and also to make the urine sugar free, a fast is essential. This fast should continue until there is no trace of sugar in the urine and for one day thereafter. In some case we have found that orange juice may be allowed and the results are the same. As a rule the strict fast is the better way. The milk diet is of value after the fast in some cases, but care must be exercised that the fats are not metabolized into sugar, or that an acidosis is not induced, in which case a fatal coma may develop. It would be best to begin with skim milk and if the sugar does not appear in the urine and there are no signs of drowsiness, which is the first symptom of acidosis, the quantity of milk may be gradually increased. Some of our best cases have taken the milk diet. Should acidosis appear the patient must be fed carbohydrate food immediately, such as corn starch, cereal gruels, crackers and puddings. If the milk diet is not used, a graded diet must be followed.

One protein food must be selected and this is added first to foods containing five per cent of carbohydrate; if there is no appearance of sugar in the urine after a week the ten per cent carbohydrates may be added for a week and next week the fifteen per cent but at the first appearance of sugar in the urine a fast is taken.

#### Throats!

Adam never kept Eve up nights with a sore throat but in them days a throat wasn't called on to stand what it does NOWdays .A sore throat isn't so bad in itself, as it is what it LEADS to! Rexall's Thoat Gargle (25c) kicks the soreness DUT!

## Bill McCallister, Please Answer!

WHY do we display the LAR-GEST Hot Water Bottle in the WORLD in OUR window? Who would it fit in Xenia? YOU own A KANTLEEK and should and swer this. You never wore one DUT, did you? Do you begrudge the \$2.50 you paid for it-8 years

## Glasceptic Nebulizer! (Parke, Davis Co.)

The most effective apparatus ever invented for breaking up into fine particles (atomizing) the powerful healing fluids for use in the throat and nasal passages. Adrenalin, expensive as it is, can be used down to the LAST DROP! For those who suffer from catarrhal disorders or choked passages, this new Nebulizer will offer untold comfort. Cunningly made of glass, no metal or rubber coming in contact with the fluids -Price

# Bent Resolutions

How are the new, clean, bright resolutions holding up? Do they show signs of wear yet or are they commencing to bend a bit? Are you sorry you didn't make some OTHER one instead of the one you

Personally we admire a person who makes a resolution. We look on them a great deal like Mark Twain looked on boils. A friend of his had a boil on his neck and was complaining about the discomfort of boils in general but PARTICULARLY boils that grew on one's neck. Mark agreed with him and stated firmly that if he HAD to have a boil he'd prefer to have it on his mother-in-law.

And that's about US on the Resolution question.

So in case YOUR Resolution is getting frayed along the edgeswhy, just bring it in and we'll do all WE can to straighten it up for

Why ANYONE would mess around patching up a resolution when it's so blamed easy to make ANOTHER one has always been apple sauce to ME! I've got a couple trunks full of mity fine resolutions, many of them practically new and unused. I've got 205 "SHOP HERE FIRST" (meaning drug stores) resolutions, which Doc Sayre wants me to give to that many local shoppers! This particular resolution fits mity neat on ANYONE and is guaranteed to show the owner enormous dividends in Dollars and contentment. Get one before they're all gone. It's a 1926 model too!

#### Jake and Cough Syrups!

ions. If you have a cough and think mebbe a tablet will fix it up, DON'T go near Jake! He's STRONG for syrups in cases of this sort and will probably sell you one that will do the job.

#### New Phonograph Records!

Don't fret because you haven't one of the new Orthophonic Victrolas! Just go right ahead with the machine you've got. Some of the records we have are from voices that are now still and gone forever-probably the biggest loss being Caruso.

#### Amazed Stomachs!

Many of them wonder how they ever got through the heavy duty they have been doing for the last couple weeks! It's only fair that you should give them a helping hand, if you know what I mean. While we have a host of good aids, we particularly recommend Rexalls Dyspeptic Tablets (25c-50c-\$1.00) and Pepsincos, a pig Pepsin preparation (25c-50c-\$1.00.)

#### And Speaking of Colds!

For not MORE than 30c and not LESS than 25c you can get ony ONE of these: Rexall's Cold Tablets, Bromo Quinine, Cascara Quinine, Rexall's Grippe Pillshan which NOTHING is more

Baby's face and back covered with eczema Resinol stopped itching quickly and healed blisters

Salem, Va., Feb. 5:-"I am writing to tell you of the wonderful benefit Resinol has been to my baby who had a bad case of eczema. The skin on her face and back was very red at first, and in a few days broke out in little blisters. The itching was awful and made the child very cross. I tried one preparation that had been highly recommended, but it did her no good. I then bought a jar of Resinol Ointment and a cake of Resinol Soap and the itching stopped after the first treatment. County Commissioners will be guided in conducting county business in the future under the complicated provisions of the Vorys law, which became operative January 1, by suggestions from J. S. Clifton, Dayton, state examiner, it is believed.

Mr. Clifton conferred with commissioners at the Court House Thursday explaining operation of the law and methods which may be pursued Cline to O. L. Oglesbee and E. D. by officials in complying with its provisions on the "pay-as-you-go" basis at the same time resulting in a minimum amount of financial embarrassment.

The state examiner is making a tour of all cities and counties in the district for the purpose of explaining to officials methods of procedure under the new law.

# Arrivec THE new-day car is here—and it's a Jewett. you through streets that seem impenetrable, lets

It is the answer of one of the automotive industry's oldest, strongest and most successful organizations to today's vital motoring needs and problems.

No surface comparison can adequately gauge this car's worth. Measure it instead against the situations and emergencies of driving.

Begin, if you like, with the severest test of all-

take The New-Day Jewett into close-packed Dart in and out-shoot swiftly ahead of the jam -stop with soft smoothness-park in spaces you

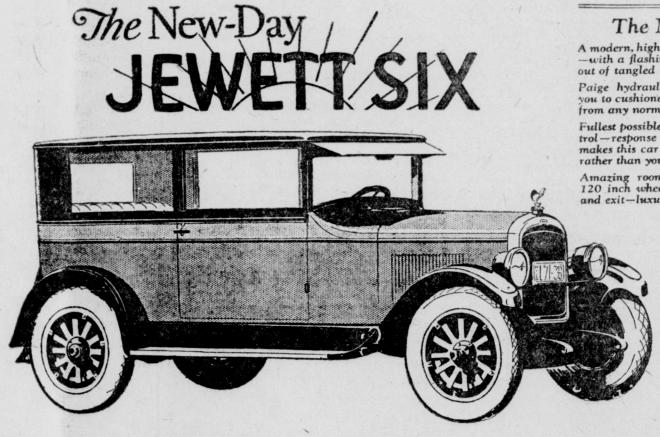

would have thought impossibly small! Realization will come quickly—that here is a car, marvelously responsive to your touch, which takes instant advantage of every opening, gets you come and go as you please where ordinarily you would never try to drive. A New-Day Car For New-Day Needs.

Then leave the crowded streets and seek un-

frequented country roads where The New-Day Jewett will reveal a quality of performance which not even preceding Jewetts, acknowledged masters of the open road, can surpass.

After years of preparation, The New-Day Jewett is here—ready for you to see it and drive it.

Let nothing prevent your seeing this epochal new-day car without delay! And do not stop with a casual inspection, for the better you learn to know this car the more you will appreciate its unusualness - its right to be known as "The New-Day Car For New-Day Needs.'

#### The New-Day Car

A modern, high-efficiency motor—6-cylinders—with a flashing "pick-up" that shoots you out of tangled traffic in the flick of an eye. Paige hydraulic 4-wheel brakes, bringing you to cushioned rest almost instant from any normal driving speed.

Fullest possible development in ease of control-response to wheel and throttle that makes this car seem to answer to your wish rather than your touch.

Amazing roominess-more than in many 120 inch wheelbase sedans-easy entrance and exit-luxurious comfort.

Clearest of clear vision that reveals the unwary pedes-trian and makes it impossible for another car to approach

New accomplishments in economy-of first cost, operation and upkeep. And Jewett's lowest closed

All this made possible by 17 years of Paige experience and with high quality certi-fied by standards from which Paige has never deviated.
